## About

I am an **industrial designer** with several years of experience in designing **industrial, graphic, and digital products**. In recent years, I have started working on **digital products** and **UX/UI design** for apps and websites, collaborating with various companies. Passionate about **visual design**, I continue to grow as a freelancer also in this field. Focused on innovation, I am always seeking stimulating and challenging projects. Committed to delivering **tangible results**, I dedicate myself to improving **user experiences** and creating **functional and original solutions**.

Reply x Durex | 2019

## Work Experience

### Freelance Designer

Reggio nell'Emilia (RE) | 2025 - Present

I design and develop industrial, digital, and graphic products

### Research Fellow

Politecnico di Milano (MI) | 2023 - Present

I develop product-service systems for health and well-being through co-design.

### Teaching Assistant

Politecnico di Milano (MI) | 2022 - 2025

Collaborated with professors and industry professionals during student reviews and evaluations, actively contributing to the organization and coordination of the course.

### Junior Industrial Designer

Ildoppiosegno design studio (MI) | 2021 - 2023

I designed, developed, and rendered product concepts, virtual landscapes, and visuals for electric vehicle charging stations and data centers for a multinational company, and created impactful presentations, concepts, and renderings for the pet care sector.

## Education

### Design and Engineering | MSc Degree
